

Part A: Professional Email Drafts

Email 1: Extension Request

Subject: Extension Request Ankit Nag(Reg. no.-25BAI11028)

Dear Prof. Kannan Sir,

I hope this email finds you well.

I am writing to respectfully request a short extension for the upcoming Assignment in your Course Digital Literacy class, which is currently due on 28 march 2026

Due to an unexpected personal, I have fallen slightly behind schedule. I have already completed [mention a part of the assignment you've finished, e.g., the initial research/the core logic], but I want to ensure the final submission meets the quality standards of your class.

Would it be possible to submit my assignment on 30 march 2026 I completely understand if this is not feasible and will respect your policy regarding late submissions.

Thank you for your time and understanding.

Sincerely,

Samarth Mishra[BTech Computer Science and Engineering (AI & ML) VIT Bhopal]

Email 2: Internship Inquiry

Subject: Summer Internship Inquiry - Web Development/Software Engineering – Ankit Nag

Dear Hiring Manager,

I hope you are having a great week.

My name is Ankit Nag, and I am currently pursuing my BTech in Computer Science and Engineering with a specialization in AI and Machine Learning at VIT Bhopal. I am writing to express my strong interest in a summer internship opportunity with Black Rock.

I have been following your team's work on [mention a specific project, product, or company value], and I am eager to contribute to your engineering goals. Through my academic coursework and personal projects, I have developed a strong foundation in Python, C++, and Web Development. Recently, I built an online image compressor website and a fully graphical motioned portfolio, which helped me refine my front-end and scripting skills.

I have attached my resume to this email for your review. You can also view my project repositories on GitHub and connect with me on LinkedIn via the links below.

Thank you for your time and consideration. I would welcome the opportunity to discuss how my technical skills and enthusiasm for development align with Black Rock's summer internship program.

Best regards,

Saurabh Rajpoot
